Dear Anoosheh Mostafaei:

Too often we do business with suppliers like you, we receive our order and never take the time to say thank you. We have just completed about two years of hard work with your assistance and have commissioned the line at Ft. Dodge, Iowa. The customer is very happy with the line and the equipment.

This letter is to express our sincere, **THANK YOU**, to you, your staff, and all the hard working people who behind the seen made this possible and the best part is we were installed **ON TIME**. Your long hours, worked Holidays, and weekends, were all a very important part of making this possible.

Sincerely,

Charlie Crook
Project Engineer
